

TERMS OF SERVICE

Last Updated: May 25, 2026

1. Introduction

Welcome to Sonor (the "Application"), a macOS desktop software developed and operated by Grzegorz Adamczyk ("Developer", "we", "us"). By downloading, accessing, or using the Application, you agree to be bound by these Terms of Service ("Terms"). If you do not agree to these Terms, do not use the Application.

2. Age Requirements

You must be at least 13 years old to use the Application. If you are an EU resident, you must be at least 16 years old, or the age of digital consent in your country, to create an account.

3. Application Features & Accounts

The Application provides voice-to-text transcription and text processing using artificial intelligence.

- **Unregistered Use:** You may use the default transcription assistant (powered by the Whisper model) without creating an account.
- **Registered Use:** Creating an account unlocks advanced AI assistants (powered by the Gemma model) and additional features such as dictionaries and snippets.
- **Account Security:** To create an account, you must provide a valid email address and a password. You are solely responsible for maintaining the confidentiality of your login credentials.

4. Privacy and Local Processing

We prioritize your privacy. All voice and text processing, including interactions with the AI models, takes place **strictly locally on your device**. We do not collect, transmit, or store your voice recordings or generated transcripts on any external servers. For more details regarding how we handle your email and account data, please refer to our Privacy Policy.

5. Third-Party Models and AI Disclaimer

- **Open-Source Models:** The Application integrates third-party, open-weight models (including OpenAI Whisper and Google Gemma). By using the Application, you

acknowledge that these models operate under their respective provider licenses.

- **Accuracy and Hallucinations:** The Application utilizes Large Language Models (LLMs). Output generated by the AI may be inaccurate, inappropriate, or nonsensical. You should not rely on the Application for professional, legal, medical, or financial advice. The Developer assumes no liability for any actions taken or business decisions made based on the generated text.

6. Intellectual Property and Open Source

6.1. Open Source Version: Portions of the Application's source code may currently be available on public repositories (e.g., GitHub) under a specific open-source license. The use, modification, and distribution of that specific source code are governed solely by the applicable open-source license provided in the repository.

6.2. Proprietary Application and Future Versions: The official compiled version of the Application (e.g., the .dmg installer) provided by the Developer, as well as the account infrastructure, remain the property of the Developer. The Developer explicitly reserves the right to cease updating public repositories at any time and transition future versions of the Application to a closed-source, proprietary model.

6.3. Restrictions: For any closed-source versions, or the proprietary components of the Application, you are granted a limited, non-exclusive license to use the software. You may not reverse engineer, decompile, or redistribute the proprietary, closed-source versions of the Application without explicit permission.

7. Modifications and Future Monetization

Currently, the Application is provided free of charge. The Developer reserves the right to modify the Application, introduce paid features, or transition to a subscription-based model in the future. Users will be notified in advance of any changes regarding pricing or access to features.

8. Disclaimer of Warranties and Limitation of Liability

The Application is provided on an "AS IS" and "AS AVAILABLE" basis. The Developer makes no warranties, express or implied, regarding the performance, compatibility, or reliability of the Application on your specific hardware. In no event shall the Developer be liable for any direct, indirect, incidental, or consequential damages arising out of your use or inability to use the Application.

9. Governing Law

These Terms shall be governed and construed in accordance with the laws of Poland, without regard to its conflict of law provisions.

10. Contact Information

If you have any questions about these Terms, please contact us at:
